PRAIRIELAKE®
Interior Doors by WOODHARBOR

Richmond

Raised Panel Doors

Greater Expectations

The doors in your home are more than a barrier between rooms. They make a statement about who you are and how you live.

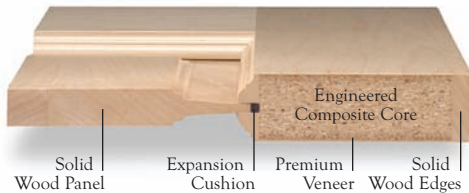

Affordable without compromise, PrairieLake Doors by Woodharbor offer wonderful designs and durable construction. Specifically, our stiles & rails of engineered composite core eliminate natural wood's potential for warping, twisting and bowing.

Woodharbor also offers complementary or matching styles, woods & finishes for:

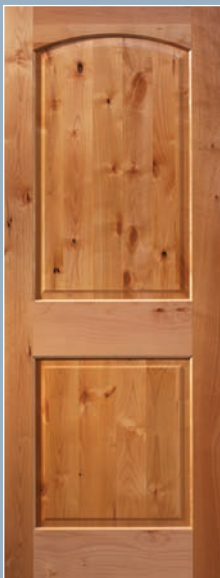

- Kitchen & Bath Cabinetry
- Fireplace Mantels
- Detailed Molding & Millwork

Use tasteful individual elements or step up to a complete Woodharbor Home for true creative cohesion. PrairieLake doors are a confident choice as you bring your home to life.

Impeccable Details, Stylish Value

We carve Richmond solid wood raised panels with a distinctive Cove & Bead profile to create dimension and rich architectural detail not possible with veneer-wrapped panels. Rugged, hardwood dowel joinery is then combined with handsome detail work, an array of designs and beautiful wood to make our Richmond Doors an excellent choice to complement any decor - from stately & elegant to casual & rustic.

Floating Panel Construction

Our unique "floating" panel system accommodates the natural expansion & contraction of the panels. We secure them firmly in place with special flexible cushions to prevent shifting, settling and rattling.

Glass Doors

True Divided Lite

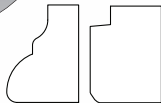

Lightness & Grace

Each of our True Divided Lite Glass Doors makes a quietly powerful architectural statement. We compression-fit safety glass into each "lite" to comply with building codes. Removable plastic film protects the glass throughout manufacturing, delivery, installation and finishing. Illuminate your home with PraireLake Glass Doors.

Fairmont

Flat Panel Doors

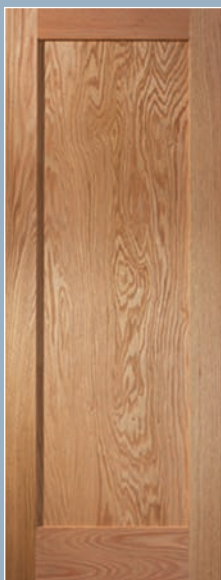

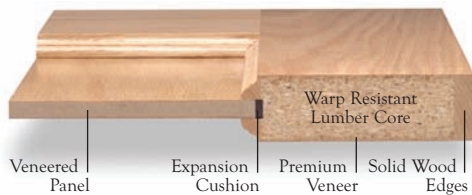

Fashionable Favorite

Our Fairmont Flat Panel Doors feature sleek designs with classic lines. Their clean and versatile simplicity fits beautifully with myriad styles – from traditional charm to contemporary sophistication.

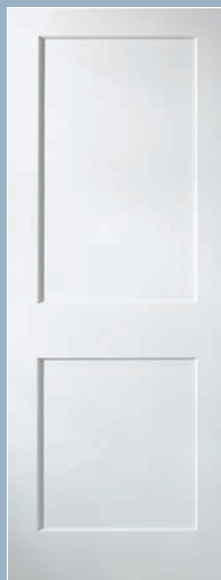

Floating Panel Construction

Fairmont Flat Panel Doors also use our unique “floating” panel system. To prevent shifting, settling and rattling, we secure the panels firmly with special flexible cushions. This accommodates their natural expansion & contraction.
