BY JEFFREY ALEXANDER

FEATURING

# LOCK SOLID™ LEVELING SYSTEM

Hardware Resources is proud to bring you Bath Details by Jeffrey Alexander, heirloom-quality bath hardware. Each piece is designed with a keen eye for trend, cast to a heavy weight, and plated in our most popular finishes.

Bath Details by Jeffrey Alexander features the LockSolid™ Leveling System, a patented mounting system that installs in minutes, and is guaranteed to hold once it is locked in place. The installation is easy, and a template and all necessary hardware are included with each piece.

Each collection features towel bars, towel rings, robe hooks, and paper holders. Our paper holders all feature a spring-free pivoting arm – simply lift, insert roll, and return arm to its original position.

Each item is boxed individually
