RUSTIC CHERRY

With Rustic Cherry, wide color variation may occur, and sap wood will be more prominent. There will be “character” spots (knot, burl, blemish, etc.) on the center panels. They may also be on the stiles and rails of the door, and on the drawer front, which could impact hardware placement. Knots, if they appear, will be sound and will be closed. At certain angles, light could be visible through the knots.

STANDARD CHERRY

KEY TO OPTION CODES

D - Decorator Edge • R - Regent Profile • □ - Furniture Pegs • F - Finger Routes • B - Bevel Pulls • S - Slab Header • 5 - 5 Piece Header
• △ - Rustic Available • T - Tinted Varnish • L - Licorice Finish • V - Vintage Finish

All doors are not offered in all species or finishes, please consult with your StarMark Cabinetry Specialist for specific availabilities. As you choose a finish, remember that variation is inherent in wood and actual finish will differ from what you see here. As we continually seek to improve materials and production methods, StarMark reserves the right to change specifications and add or remove offerings without notice.

A DISTINCTIVE GRAIN

Cherry displays a distinctive grain pattern and warm color shadings, ranging from nearly white to dark reddish brown. Dark pockets, pin knots and random streaks are common. More than most woods, Cherry will darken when exposed to light, especially in light stains. The more sun a particular area of Cherry receives, the faster it will darken. This will be most evident in new Cherry and will slow as the Cherry ages.
